

MULTI SOLAR SYSTEM

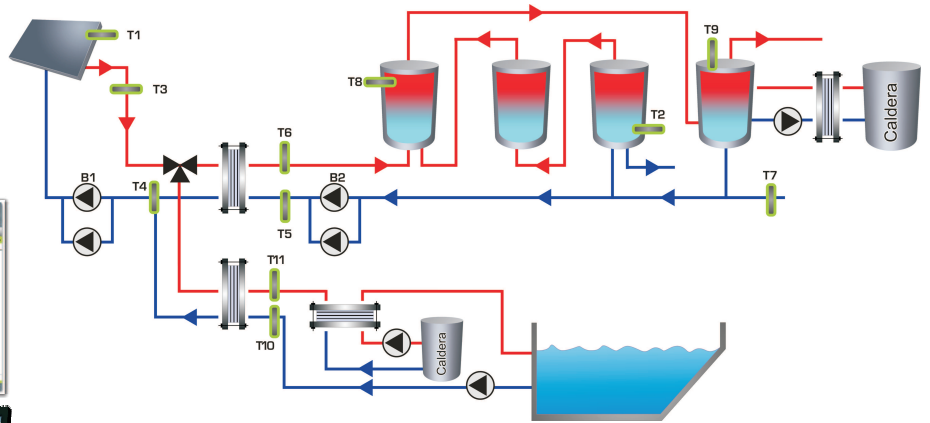

INTEGRAL SYSTEM TO CONTROL AND GESTIONATE SOLAR DHW INSTALLATION

INSTALLATION MANAGER ON-LINE SYSTEM

Energy efficiency control DHW .
 Meter/ energy reading.
 Fault Prevention and detection.
 Alarm Manager .
 Reporting and statistics.
 Preventive maintenance.

Installation in **detach- house, building, swimming pool, hotel, sport facilities...**

EQUIPMENT CONTROL FOR SOLAR THERMAL SYSTEM

Energy **consumption** control.
 Sensors and pumps **control**.
 Variable **speed-pumps**.
Over-temperature.
GPRS communication.
 Others performances.

SIMPLICITY

Simple installation
 Easy Maintenance

CONTROL

Distributed Control
 Centralised Supervision
 Fault detection
 Flow meters

FLEXIBILITY

Applicable to all type of installation.
 Adjusted and optimized investment
 Scalable and Ampliable
